Priznanje za sudjelovanje na izložbi INOVA - MLADI – Savez inovatora Zagreba

WORKSHOPS

21/08/2024 – 23/10/2024
Pontis Devcamp

Pontis DevCamp is a free learning program by Pontis Technology in which participants have the opportunity to work in a stimulating environment on app development and go through the entire app-creating process.

Pontis DevCamp aims to provide real-life experience of how things work in IT companies. The participants work in groups with a dedicated mentor and acquire the basics of many segments of software development which can help them start their careers in the future.

Over the course of the program, the participants will learn:

1. Basics of programming in C# and the use of various .NET libraries and frameworks
2. Basics of creating web APIs
3. Basics of Angular 16
4. Basics of Cloud (Azure)
5. Basics of project development and management using agile methodologies
6. Basics of Git, CI/CD and source control
7. Basics of setting up databases

With the guidance of experienced mentors, Pontis DevCamp is a thorough and hands-on learning experience that shapes junior developers.
